TABLE OF CONTENTS

		PAGE
Translocation of nitrogenous substances in the Cuthbert raspberry (with three figures)	*Charles J. Engard*	1
Anatomy of the aerial axes of *Equisetum kansanum* (with one figure)	*Isabel M. P. Browne*	35
Chromosome numbers in root nodules and root tips of certain Leguminosae (with thirty-eight figures)	*Louise Wipf*	51
Physiology of lazy corn (with three figures)	*John Shafer, Jr.*	68
Localization of photoperiodic perception in *Helianthus tuberosus* (with four figures)	*Karl C. Hamner and Elbert M. Long*	81
A plant growth inhibitor and plant growth inhibition (with eleven figures)	*William S. Stewart*	91
Effects of soil temperature, pH, and nitrogen nutrition on the development of *Poa pratensis*	*Robert A. Darrow*	109
Leaf growth hormones. I. A bio-assay and source for leaf growth factors (with six figures)	*David M. Bonner, A. J. Haagen-Smit, and F. W. Went*	128
Effect of variation in temperature during photoperiodic induction upon initiation of flower primordia in Biloxi soybean	*M. W. Parker and H. A. Borthwick*	145
Photoperiodic induction as influenced by environmental factors (with two figures)	*Elbert M. Long*	168
Structure of the shoot apex in *Zamia* (with eleven figures)	*Marion A. Johnson*	189
Histological and physiological responses of bean plants to alpha naphthalene acetamide (with fifteen figures)	*E. J. Kraus and J. W. Mitchell*	204
Effectiveness of several growth substances on parthenocarpy in holly	*F. E. Gardner and Paul C. Marth*	226
Nutrition of the myxomycetes. I. Pure culture and two-membered culture of myxomycete plasmodia (with four figures)	*Arthur L. Cohen*	243

40485

		PAGE
Use of the Feulgen reaction in cytology. I. Effect of fixatives on the reaction (with three figures)	*B. B. Hillary*	276
Ontogenetic and anatomical studies of the flower and fruit of the Fagaceae and Juglandaceae (with seventy figures)	*LaDema M. Langdon*	301
Conduction of rainfall by plant stems in a tropical rain forest (with two figures)	*Paul D. Voth*	328
Photoperiodic responses of several varieties of soybeans (with ten figures)	*H. A. Borthwick and M. W. Parker*	341
Effects of temperature, calcium, and arsenous acid on seedlings of *Poa pratensis* (with three figures)	*Aubrey W. Naylor*	366
A morphological study of *Amplisiphonia*, a new member of the Rhodomelaceae (with thirteen figures)	*George J. Hollenberg*	380
Stem anatomy of chaparral shrubs (with fourteen figures)	*Katherine S. Watkins*	391
Chemical determination of ethylene in the emanations from apples and pears	*Elmer Hansen and Bert E. Christensen*	403
Comparison of growth responses induced in plants by naphthalene acetamide and naphthalene acetic acid (with ten figures)	*John W. Mitchell and Wm. S. Stewart*	410
Growth substances and gametic reproduction in *Phycomyces* (with five figures)	*William J. Robbins*	428
Evidence for auxin production in isolated roots growing in vitro	*J. van Overbeek*	450
Vernalization of Marquis wheat and other spring cereals (with six figures)	*D. J. Wort*	457
Chromosome number in some tulip hybrids	*Ronald Bamford, George B. Reynard, and John M. Bellows, Jr.*	482
Further experiments on the relation of vitamin B_1 to the growth of green plants (with one figure)	*James Bonner and Jesse Greene*	491
Color and keeping quality of cut flowers	*Marshall S. Neff*	501
Layering in eastern white pine (with one figure)	*H. J. Lutz*	505

		PAGE
Biochemical nitrogen fixation studies. I. Evidence for limited oxygen supply within the nodule (with six figures)	*F. E. Allison, C. A. Ludwig, Sam R. Hoover, and F. W. Minor*	513
Biochemical nitrogen fixation studies. II. Comparative respiration of nodules and roots, including non-legume roots (with two figures)	*F. E. Allison, C. A. Ludwig, F. W. Minor, and Sam R. Hoover*	534
Cytological studies of *Lilium tigrinum* (with sixty-nine figures)	*Jonathan J. Westfall*	550
Structure of fossil stem of Pityean affinity from the Reed Springs formation of Missouri (with nineteen figures)	*J. E. Cribbs*	582
Deterioration of grassland from stability to denudation with decrease in soil moisture (with seventeen figures)	*J. E. Weaver and F. W. Albertson*	598
Size of nuclei in the shoot of *Ricinus communis* (with seven figures)	*Flora Murray Scott*	625
Growth responses of Biloxi soybeans to variation in relative concentrations of phosphate and nitrate in the nutrient solution (with four figures)	*Charles L. Hamner*	637
Avena coleoptile assay of ether extracts of nodules and roots of bean, soybean, and pea	*George K. K. Link and Virginia Eggers*	650
Interrelation of light and darkness in photoperiodic induction (with five figures)	*Karl C. Hamner*	658
Effect of naphthalene acetic acid and naphthalene acetamide on nitrogenous and carbohydrate constituents of bean plants (with two figures)	*John W. Mitchell*	688
Interrelations in the effects of boron and indoleacetic acid on plant growth (with one figure)	*Frank M. Eaton*	700
Light stability of auxin in *Avena* coleoptiles	*W. S. Stewart and F. W. Went*	706
Permanent changes of chloroplasts induced by X rays in the gametophyte of *Polypodium aureum* (with forty-six figures)	*Lewis Knudson*	721
Spore germination and vegetative stages of the gametophytes of *Hymenophyllum* and *Trichomanes* (with thirty-five figures)	*Alma G. Stokey*	759

		PAGE
Absorption of soil moisture by maize roots (with three figures)	*Charles Homer Davis*	791
Floral initiation in Biloxi soybeans as influenced by age and position of leaf receiving photoperiodic treatment	*H. A. Borthwick and M. W. Parker*	806
Growth and development of the embryo and fruit of the peach as affected by ringing and defoliation of the branches (with four figures)	*H. B. Tukey and F. A. Lee*	818
Cytological investigations in Desmodium and Lespedeza (with forty-three figures)	*J. Oran Young*	839
Sex expression in willows (with four figures)	*Ernest C. Smith*	851
Density of stomata and oil glands and incidence of water spot in the rind of Washington navel orange (with nine figures)	*F. M. Turrell and L. J. Klotz*	862
Origin of adventitious shoots in decapitated cranberry seedlings (with fifteen figures)	*Henry F. Bain*	872
Effect of naphthalene acetic acid on mobile auxin in bean seedlings (with one figure)	*William S. Stewart*	881
Growth of incompatible pollen tubes in *Oenothera organensis* (with six figures)	*Sterling Emerson*	890
Effect of potato extracts on growth of *Phycomyces* (with three figures)	*William J. Robbins and Karl C. Hamner*	912
Avena coleoptile assay of ether extracts of aphids and their hosts	*George K. K. Link, Virginia Eggers, and James E. Moulton*	928
Auxin in marine plants. II	*J. van Overbeek*	940
Morphological study of *Exormotheca tuberifera* (with twenty-five figures)	*Sultan Ahmad*	948
BRIEFER ARTICLES—		
ADOLF CARL NOE, obituary notice	*E. J. Kraus*	231
Polyembrony in *Myrciaria cauliflora*	*H. P. Traub*	233
HENRY CHANDLER COWLES, obituary notice	*E. J. Kraus*	241
Fluorescent lamps as a source of light for growing plants	*A. W. Naylor and Gladys Gerner*	715
